

Normalisation Lesson 01 Submission Tasks

Submission Process

Download **DAD_submission_template.docx** from Canvas.

Paste the required screen captures from the tasks below into this file.

Submit the (.docx) file into **the** appropriate weekly task on [Canvas](#)

Task 1.

In the Task 1 section of the submission template, paste the following table:

Normal Form	Description
0 NF	
1 NF	
2 NF	
3 NF	

In the description column fill in the brief description of what is needed to be done to achieve each normal form

Task 2.

Download the normalisation_exercise.xlsx

Follow your teacher through the process of normalising the data to 1NF

Screen capture the data in 1NF and paste it in the appropriate place in the **submission template**.

Task 3.

Follow your teacher through the process of normalising the data to 2NF

Screen capture the data in 2NF and paste it in the appropriate place in the **submission template**.

Task 4.

Follow your teacher through the process of normalising the data to 3NF

Screen capture the data in 3NF and paste it in the appropriate place in the **submission template**.
